

A unique expertise with small and medium size cities

*Experimenting innovative technologies
for smart, green and safe mobility*

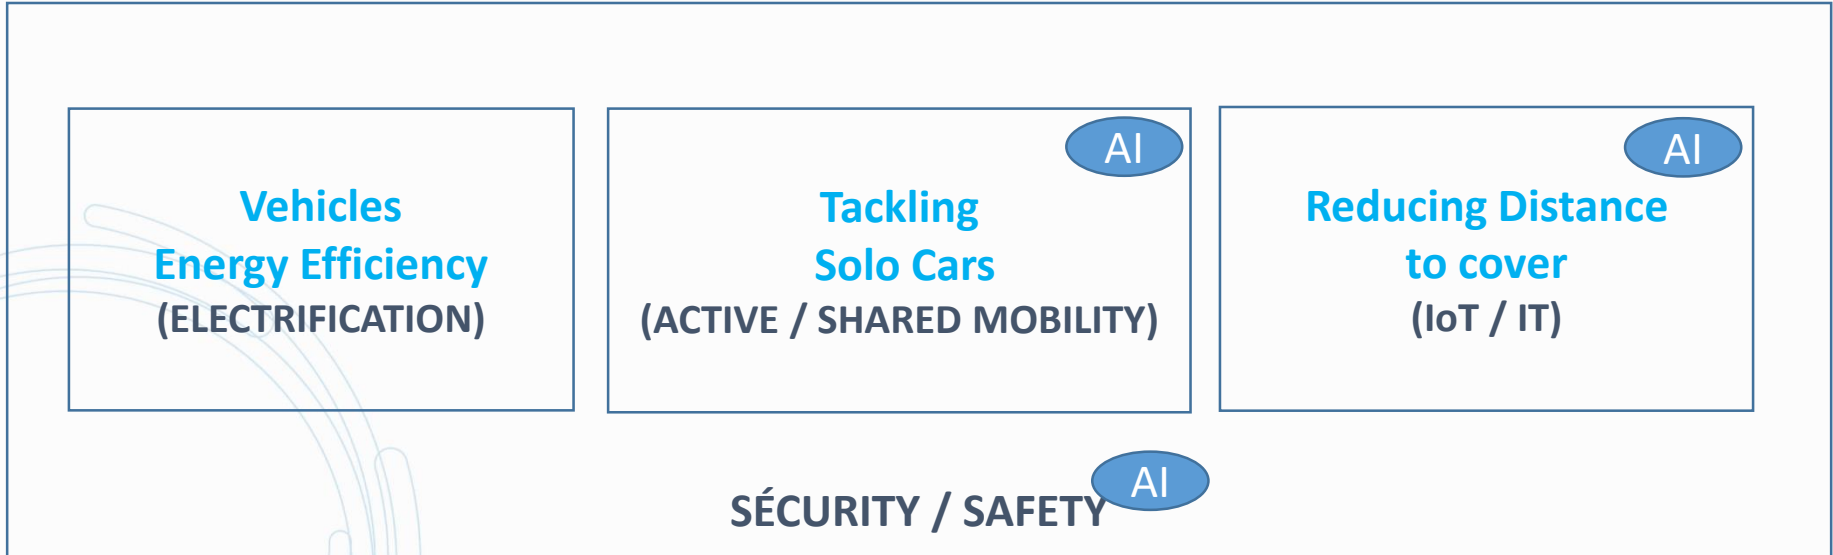

*Benoit Balmana
CEO*

Network of innovative cities

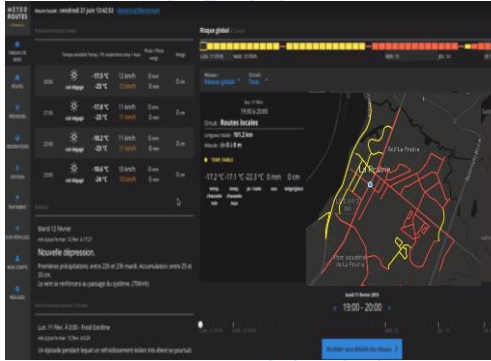

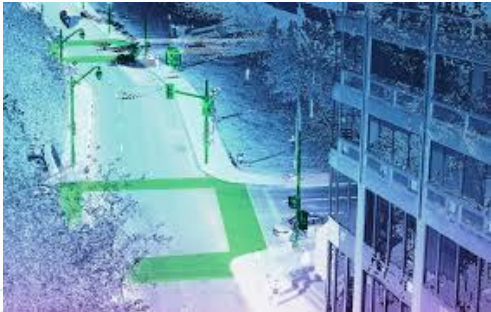

- 30 small and medium cities looking for new solutions
- Smart mobility in the specific context of small and medium cities
- An approach of pilot projects and testing (living lab)
- Sharing experiences and good practices around similar issues

Deploying Smart Mobility

Exemple of projects

Conclusion

- Context in SMC is different compare to Large cities...solutions too
- Innovation should be affordable for any size of cities
- Social acceptance is key for the success of smart mobility projects
