MASTERING LIDAR SENSOR TECHNOLOGY

LeddarTech High Growth Opportunity

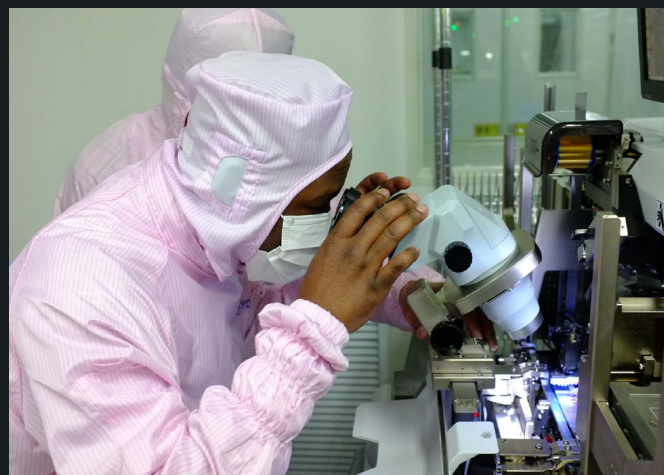

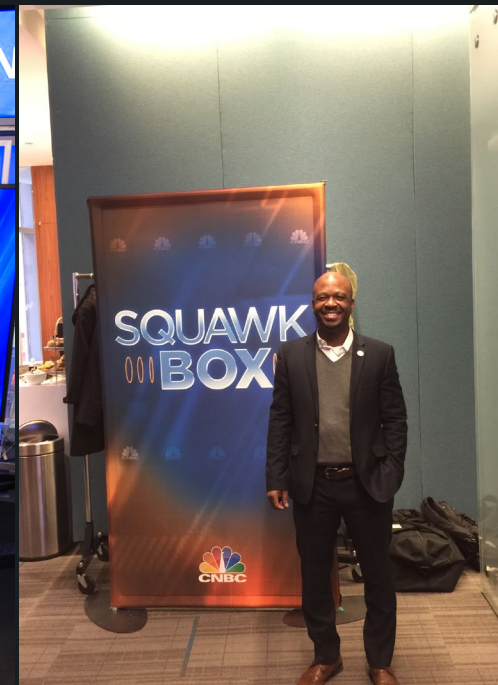

Presented by Frantz Saintelley

Confidential September 2019

FRANTZ SAINTELLEMY

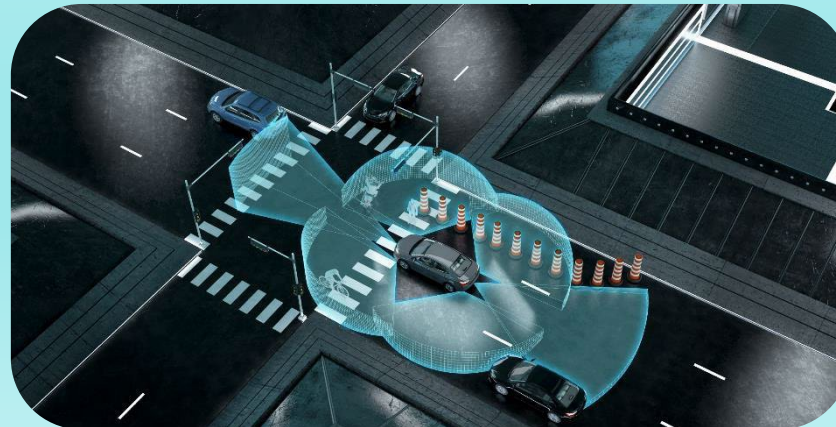

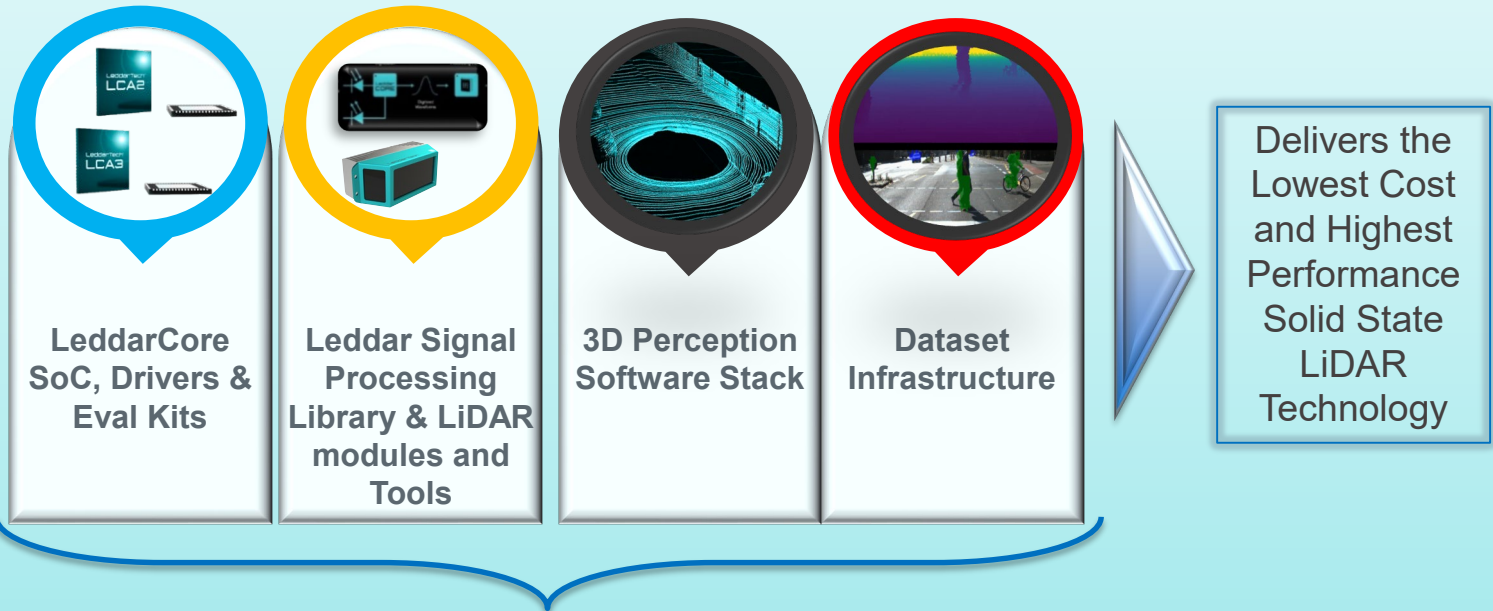

- MSEE / MBA
- President & COO - **LeddarTech**
- Co-Founder and Chairman – **Groupe 3737**
- Former President – **ZMD AG / ZMDI & VP/GM IDTI**
- Former CTO – **Future Electronics**
- Former GM – **ADI**
- Co-Founder **Several Tech Startups**

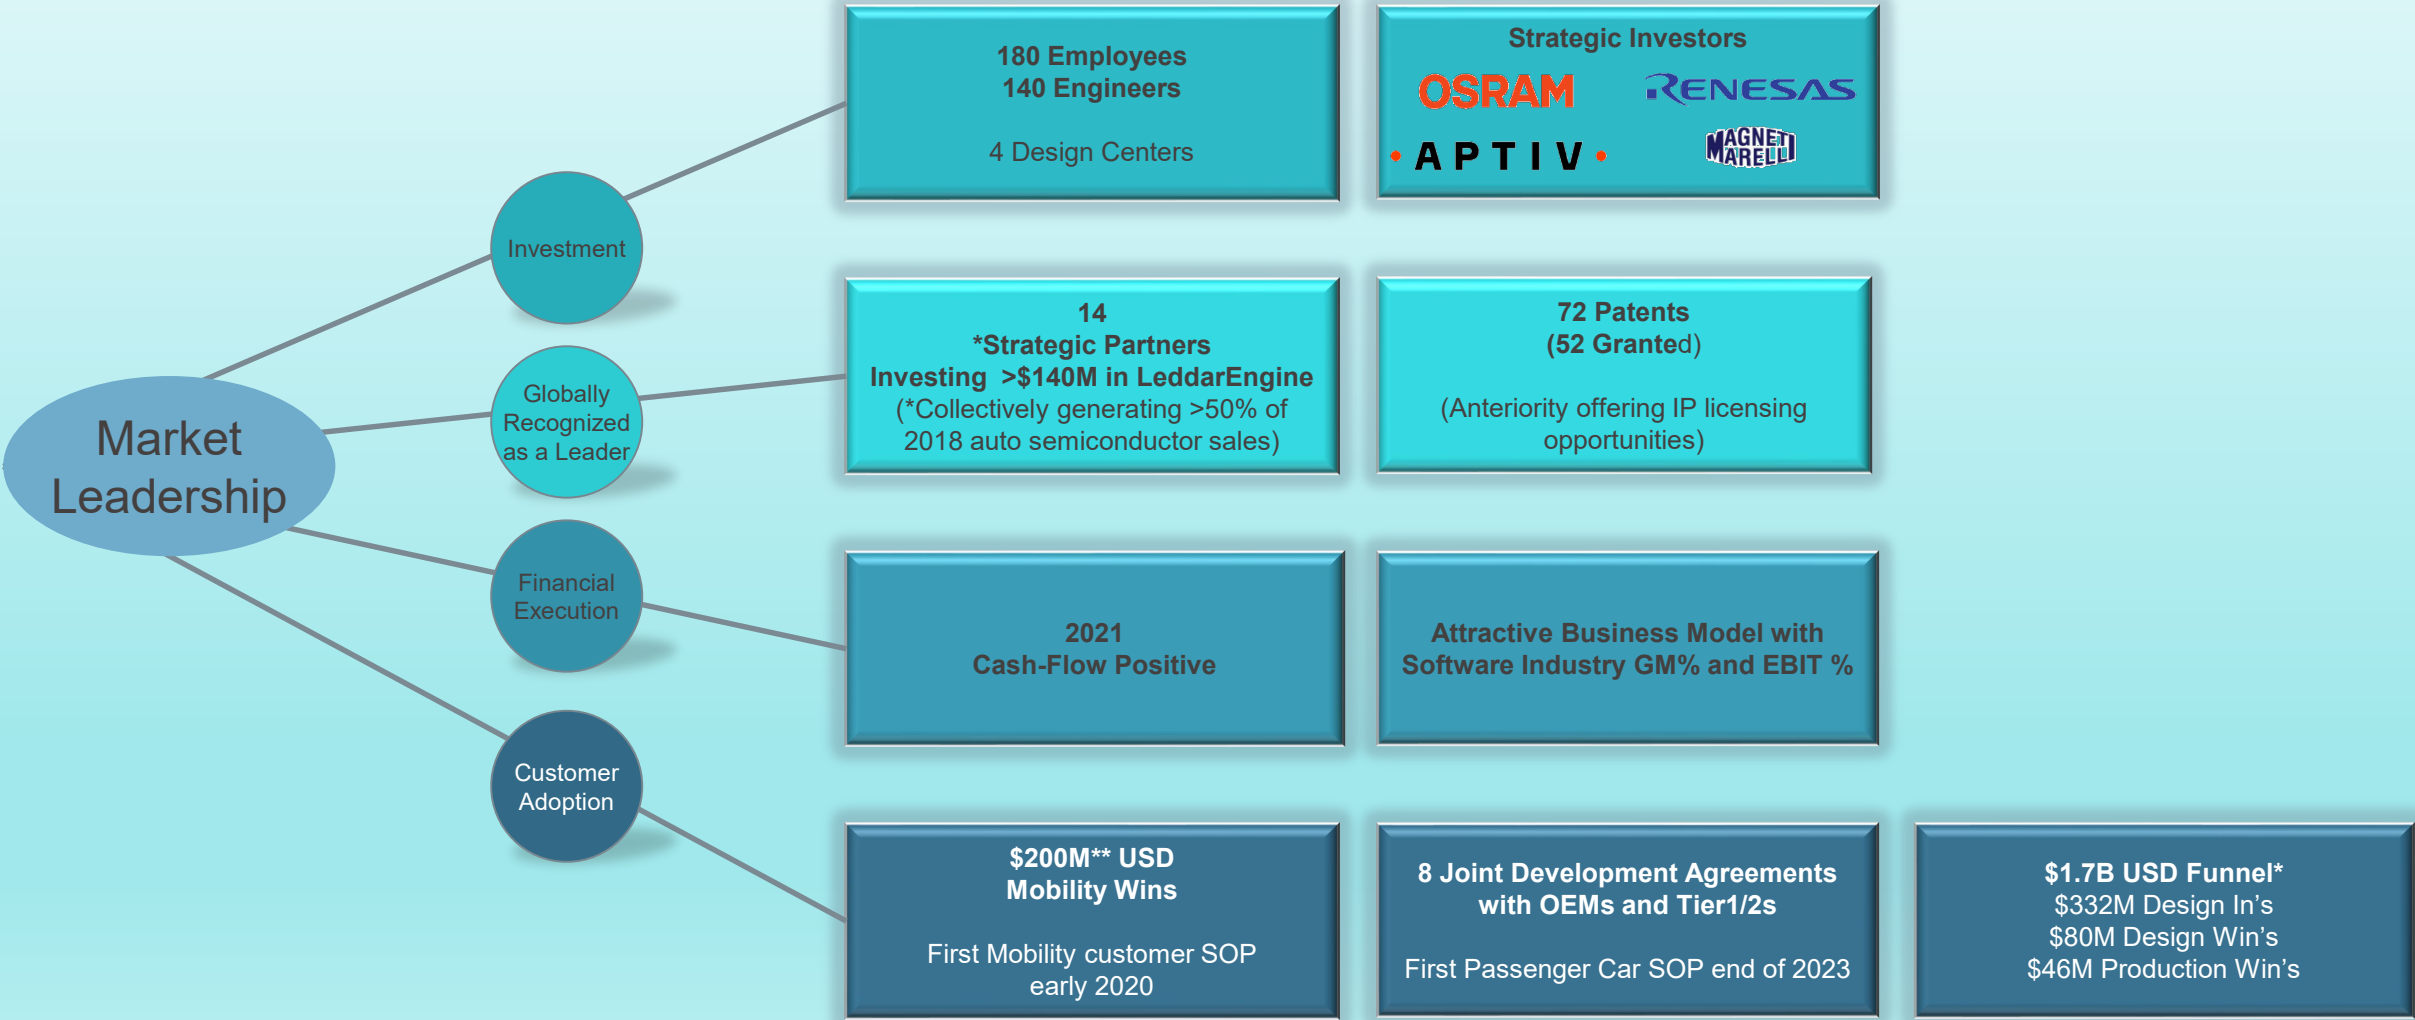

- Founded in 2007
- LiDAR and AD Sensing Technology company
- >35,000 units sold and 30+ million hours of 24/7 SSL operation in outdoor environments
- Strong IP in signal acquisition and processing technology (72 patents, 52 granted)
- 14 Generation of SSL technology in volume production
 - M16/IS16, Vu8, LeddarOne, D-Tec
 - Next Generation LCA2 & LCA3 based SSL with announced customer wins ~ \$200M (3yr LTV)
- Open, scalable and flexible platform enabling various optimized LiDARs solutions ADAS & AD applications

Three Pillars of LeddarEngine

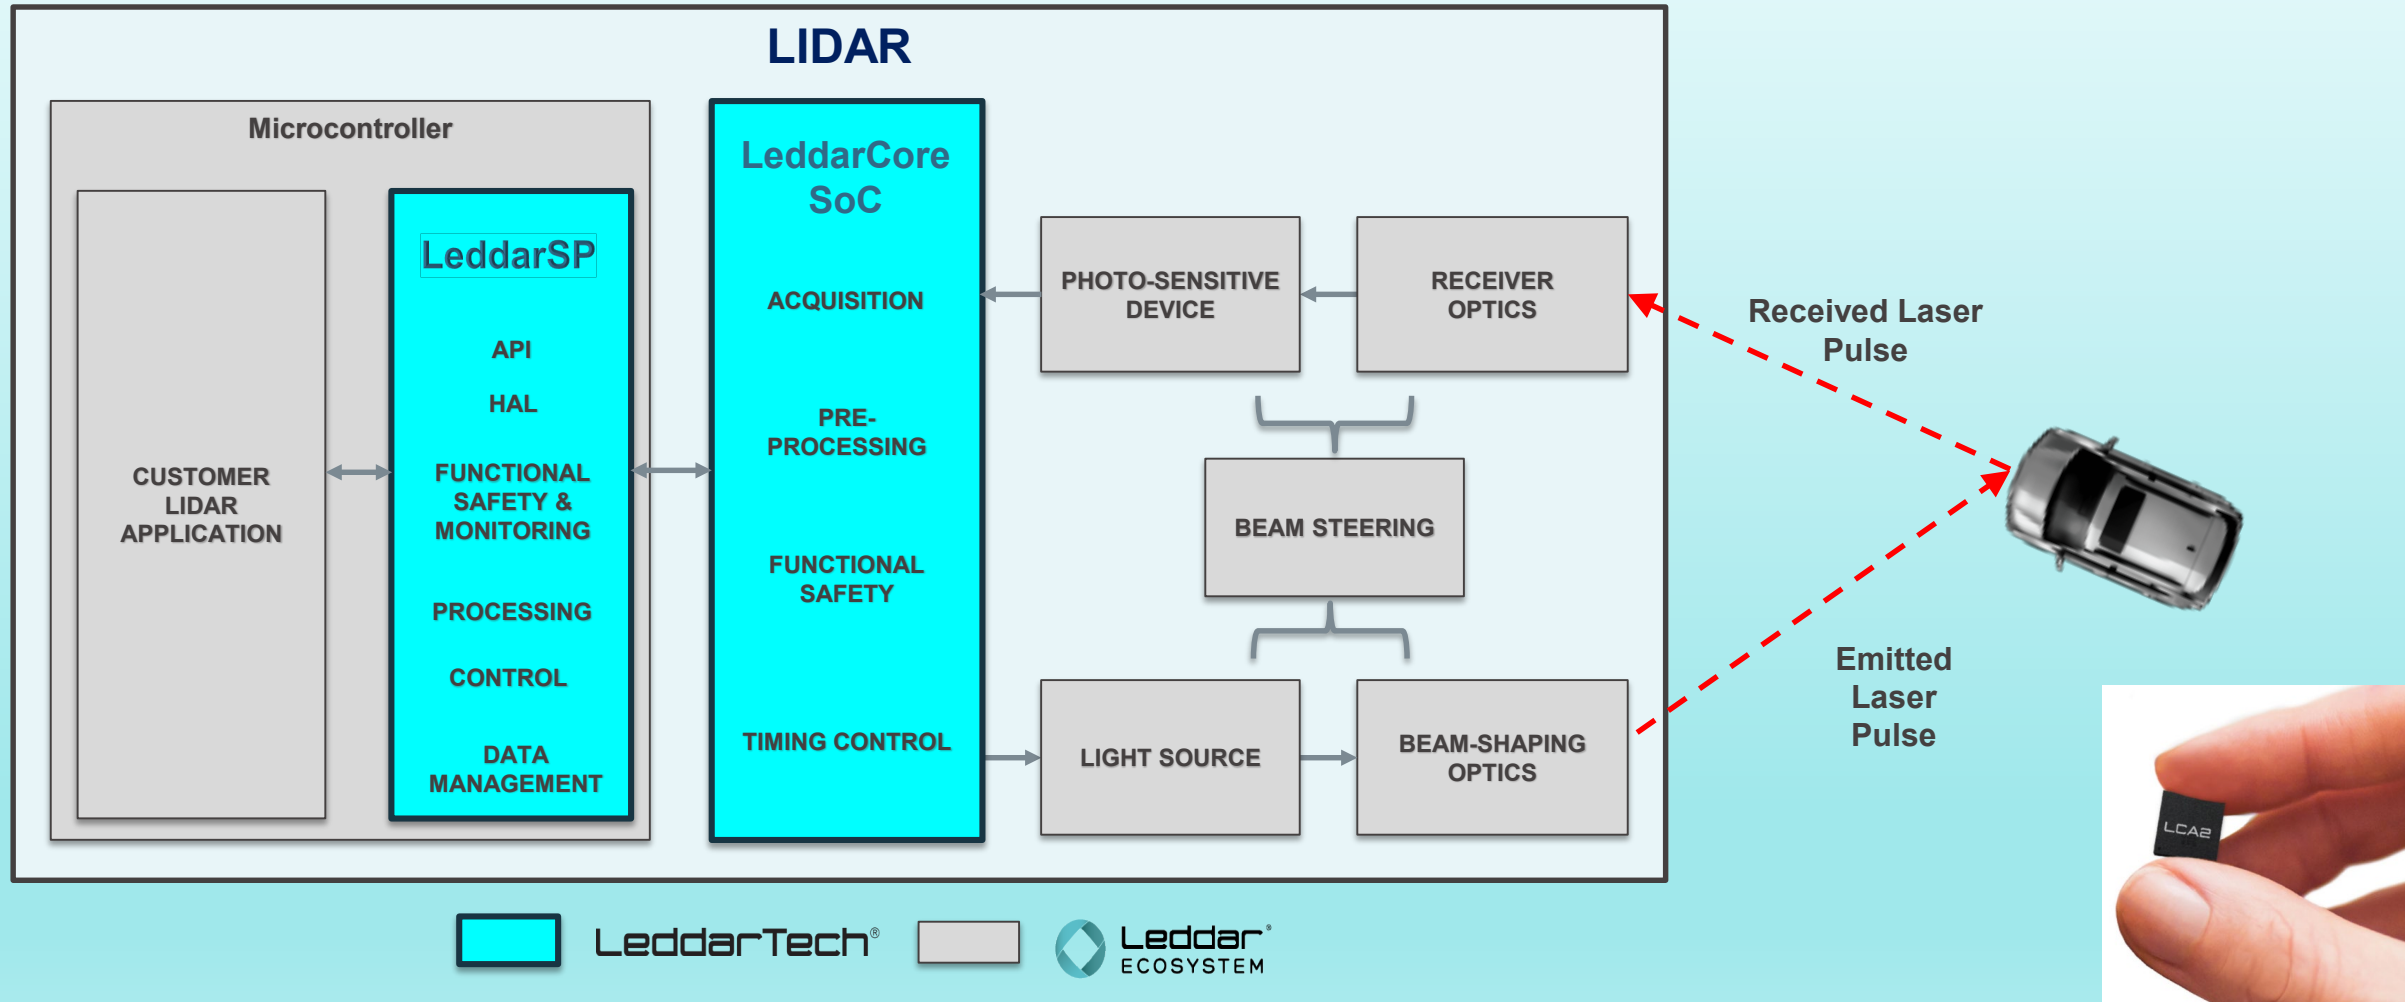

ADAS / AD L2 – L5

*As of Aug 2019 & 5-yr LTV
**As of Aug 2019 & 3-yr LTV

Key LeddarEngine – based LiDAR building blocks

- LeddarEngine: Automotive-grade LeddarCore SoC's + LeddarSP software library
- Designed to meet ISO 26262 ASIL-B requirements
