Emilia-Romagna Region

Main Indicators

Population	4.45 million
GDP per capita	34500 €
Export	63 billion €
Employment rate	70,2%
Unemployment rate	5,5%
No. companies	372.000
R&D/GDP	≈ 2%

1st region by number of per capita patents

2nd region by number of innovative companies

1st region by number of Erasmus students

1st region by per capita export

University System, Research Centres and International Agencies

Regional University System (7 Universities)

- 400 courses (Three-year and magistral degrees)
- 153 master
- 126 Specialization Courses
- **160 thousand students**
- Bologna Business School (Master/MBA)
- PhD and International Data Science Phd
- School of Advanced Studies in Food Safety
- MUNER (Motor vehicle in E-R)
- High Education Courses (Climate Change, Homeland Security)
- **7 Foundations ITS with 29 courses**

4 Large Research Infrastructure:

Big Data Technopole
INAF Radio Telescopes
ENEA Brasimone (Energy)
CICLoPE Long Pipe Experiments

National and International Research Centres:

(Cineca, CNR - National Research Council, INFN - National Institute for Nuclear Physics, INAF - National Institute for Astrophysics, ENEA - National Agency for New Technologies, Energy and Sustainable Economic Development, CMCC - Centro Euro-Mediterraneo sui Cambiamenti Climatici, INGV - Istituto Nazionale di Geofisica e Vulcanologia)

International Authorities/Agencies:

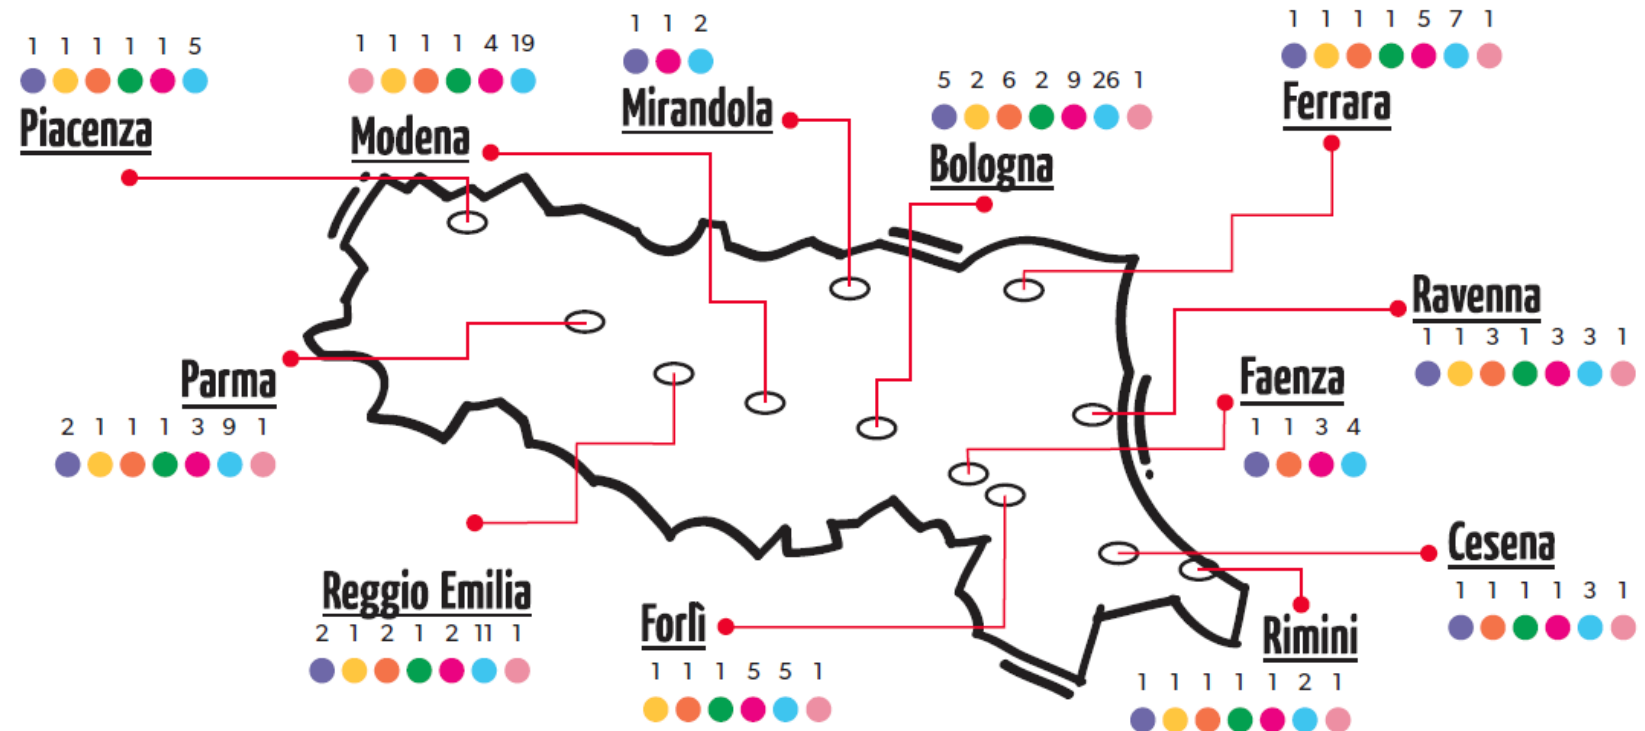

European Food Safety Authority, European Centre for Medium-Range Weather Forecasts

ART-ER
 (Attractivity, research,
 territory/technology)

The Ecosystem: Technopoles, Laboratories, S3 areas, Incubators, Fablabs, Open Laboratories Network

- **TECHNOPOLES NETWORK**
10 Infrastructures
20 Locations
- **HIGH TECHNOLOGY NETWORK**
82 Industrial Research Laboratories
14 Innovation Centres
- **INCUBATORS NETWORK**
75 Public and Private organisations
- **DIGITAL MANUFACTURING NETWORK**
MAK-ER
22 Fab Labs and Maker Spaces
- **OPEN LABORATORIES NETWORK**
10 Equipped Areas with hi-tech solutions
- **LOCAL NETWORK «SPAZI AREA S3»**
10 Offices located in the Technopoles to assist highly-skilled (young) people
- **ITS NETWORK**
7 Hi.Tech Schools

Specialization and Interdependence System

University of
Emilia-Romagna

Total memberships	463
Research Labs & Innovation Centres (High Technology Network)	201
Companies	204
Education & Training	32
Others	26

463 members

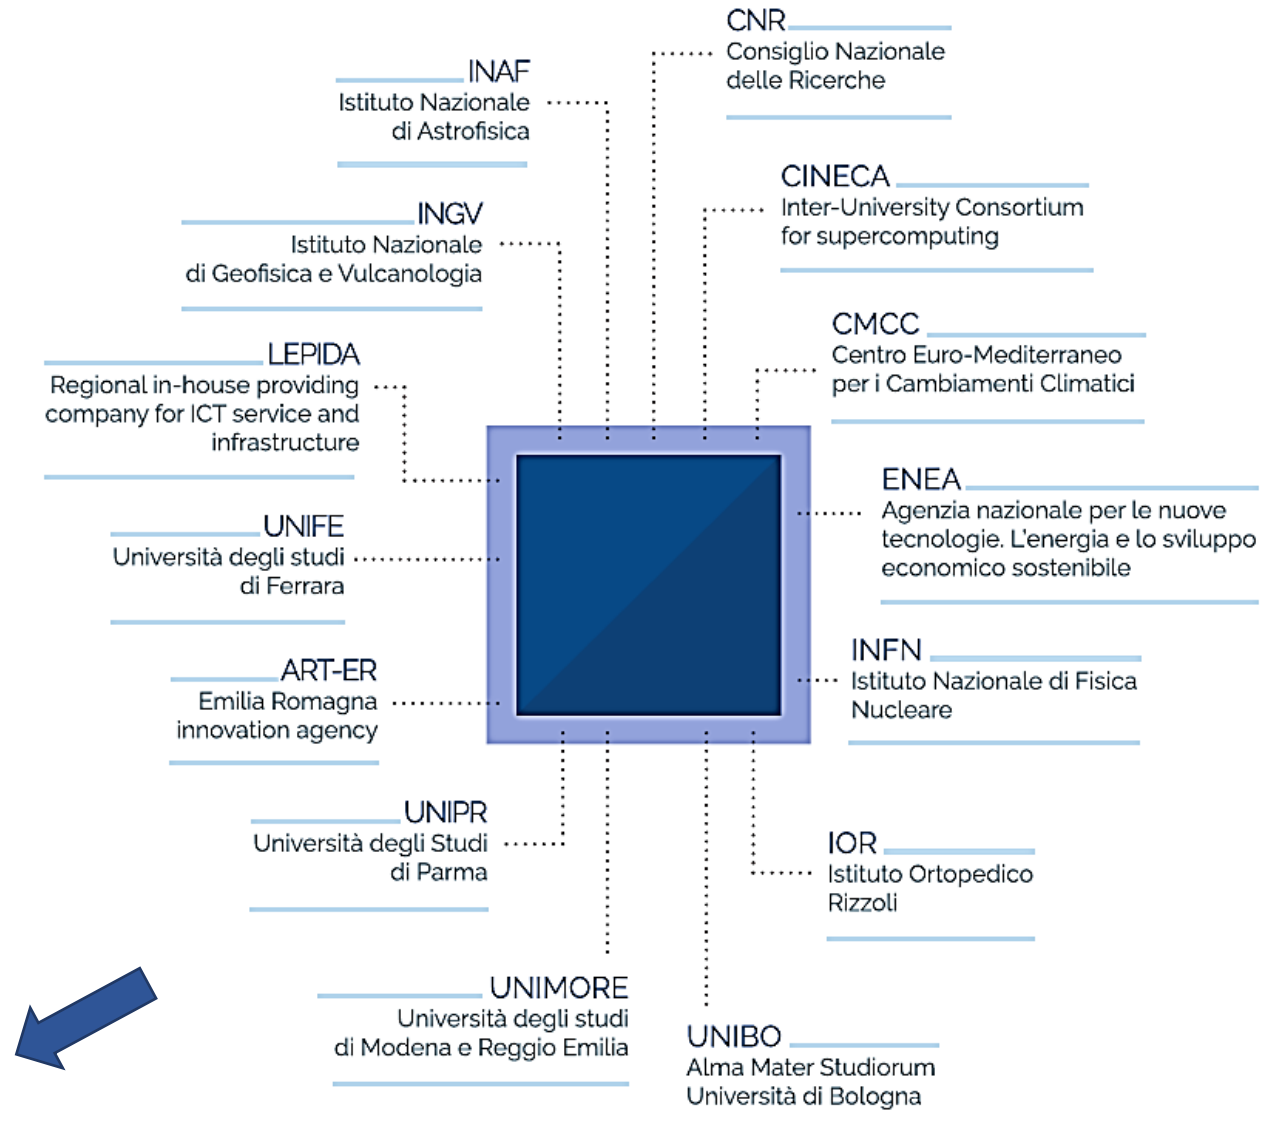

Community of public and private subjects (research centres, companies, training institutions) that share ideas, skills, tools, resources to support the competitiveness of Emilia-Romagna production systems and to participate to National, European and International projects and initiatives.

Big Data Association - BDA

- Governance
- Awareness and inclusiveness
- National and International Networking
- Funds raise

Supported by Emilia-Romagna Region

Towards the new Big Data Foundation

Big Data and Artificial Intelligence

The Passion and the Vision

Emilia-Romagna plays a leading role with a concentration of energy and resources on **computing and digital economy** that makes this territory ready to face the challenges that technology offers.

The Strategy

- Create a favorable and smart environment for the development of a digital economy
- Create international digital HUB and spoke widespread in the whole region and national territory
 - Visible at worldwide level for the concentration of HPC infrastructure
 - Reinforce by the educational and training supply to provide skills for the next generation
 - Scale up political and administrative decisions to create a governance independent, excellent, effective
 - Improve the role of LEPIDA, CINECA, INFN, private and public Research laboratories, Universities

... Strong roadmap and vision for the future: the relevance of CINECA-INFN in Emilia-Romagna

- CINECA is the unique Interuniversity Consortium in Italy and assume the role of National Supercomputing Facility
- INFN CNAF is one of the most important tier1 computing system of the CERN Worldwide LHC Computing Grid in the world
- ECMWF, the European Centre for Medium-Range Weather Forecasts, decided to locate its HPC data center at the Bologna Tecnopolo
- GARR and LEPIDA, after providing a MultiTerabit international connection between the Bologna PoP and CERN, is moving towards network services extreme bandwidth
- In 2021 CINECA will be one of the EuroHPC hosting Entities and will host a next-generation European HPC pre-exascale system in Bologna
- The CINECA - INFN data center of the Bologna Tecnopolo was designed to host the second generation Italian exascale HPC system in 2024/2025

The Bologna Tecnopolo – science park

A European, National and Regional investment for Digital Economy and BD

European, National and Regional investments: key point for international attractiveness

- ECMWF DC 
- ONGOING** • Italia Meteo
- CINECA-INFN new data center   ISTITUTO NAZIONALE DI FISICA NUCLEARE
- EuroHPC Hosting Entity "Leonardo"  EuroHPC Joint Undertaking
- Italian Industry 4.0 Competence Centre (47 entities involved)  bi-rex Big Data Innovation & Research Excellence
- ONGOING** • EuroHPC National Competence Center for SME
- Centre of Excellence in Material Design  MAX DRIVING THE EXASCALE TRANSITION
- HPC Service provision to Eurofusion worldwide community  EUROfusion
- ONGOING** • AI and computer vision lab at University of Modena & Reggio Emilia (AIRI)

€ 500 millions

Big Data and Artificial Intelligence: the Education and Training System

- ✓ **Master's Degree in Artificial Intelligence**, that represents the first example in Italy
- ✓ **Lessons on big data and artificial intelligence are included in the training offer of all four regional universities**
- ✓ With reference to the post-graduate offer, **two first level international master's courses in English and two specialization courses in Italian:**
 - ❑ the Digital Technology Management master's degree at the Department of Computer Science and Engineering of the University of Bologna
 - ❑ the master in Data Science activated at the Department of Business Sciences of the University of Bologna
 - ❑ the specialization course on Big Data Analytics offered by the Bologna Business School (BBS);
 - ❑ the specialization course on Methodologies, Techniques and Tools for Big Data Analysis offered by the "Enzo Ferrari" Department of Engineering of the University of Modena and Reggio Emilia.

New investments in R&D and AI in Emilia-Romagna

Main projects supported by Regional Law n.14 of 2014 on the
promotion of investments in Emilia-Romagna.

Some figures to summarize the process...

ARTIFICIAL INTELLIGENCE

- Over 8000 papers
- 49 European projects
- 65 Patents
- 6 Universities
- 180 companies
- 31 research centres
- 64 public organizations

BIG DATA

- 690 Papers
- 23 European projects
- 6 Universities
- 31 companies
- 12 research centres
- 19 public organizations

Outcome of an analysis, using the Big Data techniques, to study the activities on Artificial Intelligence and Big Data through participation in European projects, scientific publications and patents.

A perimeter of interest has been defined by keywords.

Challenges for the future

But the major challenge is to use Big Data and Artificial Intelligence...

... to improve our LIFE!

Thank You,

Morena Diazzi
